About me:

I have just over 4 year of experience as a Senior software developer with updated Technologies and I've already contributed over many projects

Prior to this role, I completed four-year in software development with Web Development, where I honed my web development skills. Ideally, I would like to continue to specialize in web software development.

I have completed BSc. in Information Technology | Mekelle University offers a five-year Bachelor's degree program in Information Technology.

I have studied data structures and algorithms, software engineering, mobile application development, database and database systems, web development and technologies, quick application development, networking, and mobile computing, among other things.

I attended Secondary and Preparatory School in TEMBEN, Tigray. From September 24, 2011 to July 7, 2015, I completed my high school and preparatory programs at WEKAMBA secondary and preparatory school in Temben Abiadi, Central Tigray.

I received my bachelor's degree in Information Technology Engineering from Mekelle University (IT).
