ABOUT ME

As a Fullstack Senior Developer with over 7 years of experience, I have gained expertise in a variety of technologies including Node.js, React.js, Vue.js, Angular.js, ASP.NET Core, and Laravel.

I have a proven track record of delivering high-quality solutions that meet business requirements while adhering to strict deadlines. You can check out some of my work on my portfolio site at https://yemanegebre.github.io/.
My technical skills include proficiency in frontend and backend development, database design, and software architecture. I am comfortable working in both Agile and Waterfall environments and have experience collaborating with cross-functional teams to achieve project goals. In addition to my technical expertise, I possess strong communication skills and a passion for problem-solving.

I am constantly learning and staying up-to date with the latest industry trends and best practices. Overall, I am a dedicated and results-oriented Fullstack Senior Developer with a proven ability to deliver innovative and efficient solutions that drive business succes

WORK EXPERIENCE

07/11/2018 – 03/08/2020 Mekelle, Ethiopia
JUNIOR SOFTWARE DEVELOPER RENOSTAR IT SOLUTION PLC

- I have been working as a Vue.js and Laravel developer at Renostar Ict Solution for about 1 year. During this time, I have gained a deep understanding of these technologies and how to use them to build robust web applications. One of the projects I worked on was developing a Court system software. This project involved collaborating with other developers and stakeholders to understand the requirements, design the system architecture, and implement the software using Vue.js and Laravel. Throughout the project, I leveraged my expertise in Vue.js and Laravel to develop efficient and maintainable code. I also implemented several key features such as user authentication, document management, and case tracking, which helped streamline the court system's processes and improve overall efficiency. Overall, my experience as a Vue.js and Laravel developer at Renostar Ict Solution has allowed me to contribute to a critical project and develop valuable skills that I can apply to future projects.

- Court System Software: this software developed using Vuejs(as frontend) and Laravel(as backend).for Tigray Regional courts .
- Inventory and Finance Management System: I have developed this System using Qualified algorithms for AFFEOS(Abssinia foam Factory) campany in Mekelle as a fullstack developer using ASP.net as backend and React Redux as frontend and my role in the system was as full stack developer.
- Nodejs(backend) and React(frontend) for Libanos and Betalogo colleges and my role in the system was as full stack developer.

11/03/2020 – 10/06/2021 Addis Ababa, Ethiopia
SENIOR SOFTWARE DEVELOPER RCNDC SOFTWARE DEVELOPMENT PLC

- Developed an ecommerce website using NodeJS and React that resulted in a 50% increase in sales revenue for the company.
- Collaborated with a team of developers and designers to ensure the website was user-friendly, secure, and optimized for search engines.

- Conducted through testing and debugging to ensure the website was functioning properly before launch.Utilized Agile methodology to manage projects and ensure timely delivery of software solutions.Acquired proficiency in software development tools such as Git, JIRA, and VS Code.Attended training sessions and workshops to keep up-to-date with the latest developments in the software development industry. Remember to tailor your experience section to the specific job you're applying for by including relevant skills and accomplishments that align with the requirements of the job. Use bullet points to make your experience section easy to read and highlight your achievements in each role.

- Adimera E-commerce: I have used Nodejs(backend) and react (as a frontend) technologies to implement this ecommerce website. Here's how to get the ecommercehttps://adimera.com and my role was full stack developer.
- Yehagere E-commerce: the system was developed using Nodejs(backend) and React(as a frontend), and I was the backend developer on this project. Here's how to get the ecommerce: Yehagere's website can be found at www.yehagere.com (on RCNDC Software PLC).

11/06/2021 – 08/11/2021 Addis Ababa, Ethiopia
SENIOR SOFTWARE DEVELOPER FARKA ICT SOLUTION PLC

As a full-stack developer at Farka ICT Solution PLC, I was responsible for developing an Educational Evaluation System using Laravel and Vue.js. Specifically, my responsibilities included:
- Collaborating with the team to design and develop an Educational Evaluation System that meets the client's requirements
- Developing and implementing clean and efficient code using Laravel and Vue.js to ensure the system is user-friendly and efficient
- Integrating the front-end and back-end components of the system to ensure smooth performance and data flow
- Debugging and troubleshooting issues to ensure the system is operating at the highest level of quality
- Implementing appropriate security measures to protect student and faculty data Through the development of this Educational Evaluation System, I gained extensive experience in full-stack web development and honed my skills in Laravel and Vue.js. Additionally, I was able to develop a better understanding of the education industry and the importance of creating user-friendly, secure, and efficient systems for educational institutions. I am proud of my contributions to the development of this Educational Evaluation System and look forward to continuing to develop challenging projects in the future.

02/08/2021 – CURRENT SchellingStrasse 22(Munich), Germany
SENIOR SOFTWARE DEVELOPER ADEY MESELESH SOFTWARE DEVELOPMET PLC

As a fullstack developer at Adeymeselesh Software Development PLC, I worked on the development of an e-commerce website using Node.js and React Redux. My responsibilities included:
- Designing and developing website features using Node.js and React Redux
- Collaborating with the design and development team to ensure smooth integration of front-end and backend components
- Writing clean, maintainable, and efficient code
- Implementing appropriate security measures to protect customer data and sensitive information
- Testing and debugging code to ensure high-quality performance
Over the course of my two years at Adeymeselesh Software Development PLC, I gained extensive experience in fullstack web development, honed my skills in Node.js and React Redux, and developed a strong understanding of the e-commerce industry. I am proud to have contributed to the success of this project and I am excited to continue working on challenging projects in the future.I have developed e-commerce websites, and you can see the projects I worked on by visiting the following links:

ADDITIONAL INFORMATION

HOBBIES AND INTERESTS

Gaming and Game Development Gaming has been a significant part of my life since I was young. I enjoy exploring various genres, but I'm particularly fascinated with strategy and simulation games. Additionally, I like to dabble in game development during my free time, creating simple games and learning about game design principles.

Coding and Personal Projects: Apart from my professional work as a software developer, I love spending time coding personal projects. Whether it's building small web applications, experimenting with new programming languages, or contributing to open-source projects, programming is not just my career but also my passion.
